## PJD Nylon Junior Convertible Series

### Parts List, and Assembly Instructions

Thank you for your purchase. The box you received should include the following.  
**Please contact our Customer Service Department at 1-(800)-835-4099 if any parts are missing.**

#### PARTS LIST:

A- One nylon frame and casters – preassembled by the factory

B- One base plate  
 Part # PBSABLK-1

C- Four bolts  
 Part # HDB.375x1.500

D- Four nuts  
 Part # HDNFL.375

E- One axle (Taped to the side of the frame)  
 Part # AX 1/2N15

F- Two wheels  
 Part # WH 22

G- Two washers  
 Part # HDW.500x1

H- Two cotter pins  
 Part # HDP.125x.75

I- Two locking pins  
 Part # HDPLP.187

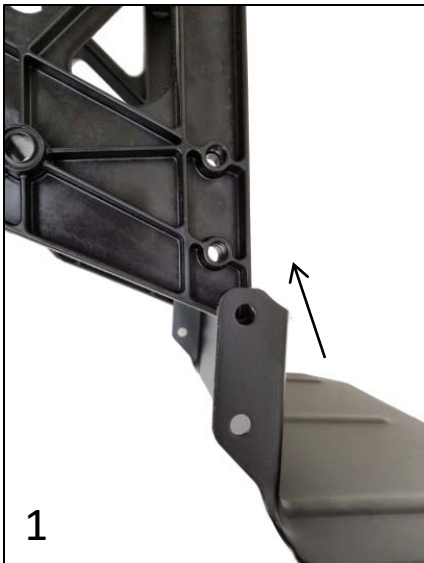

J- One handle  
 Part # FPPGDY-8

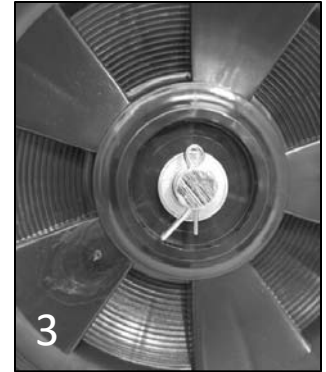

#### BASE PLATE ASSEMBLY INSTRUCTIONS

- 1) Slide the base plate (Part B) over the nylon frame (Part A) and align bolt holes.
- 2) Insert 4 bolts (Part C) through the base plate, and the frame.
- 3) Using 4 Nuts (Part D), finger tighten the nuts, and bolts, to secure the base plate to the frame.

## WHEEL AND AXLE ASSEMBLY INSTRUCTIONS

- 1) Push axle (Part E) through the holes in the frame so the axle ends are protruding from the frame equally.
- 2) Place a wheel (Part F) on the axle with a washer (Part G) on the outside of the wheel. Secure the wheel, and washer, by inserting the cotter pin (Part H) through the holes in the axle.
- 3) **Use pliers to bend back the long end of the cotter pin at least 45 degrees.** Repeat process with the second wheel.

## HANDLE ASSEMBLY INSTRUCTIONS

- 1) Insert the handle (Part J) into the desired vertical, or horizontal frame holes.
- 2) Insert the handle pins (Part I), through the frame, and holes in the handle, until they lock into the plastic clips.
- 3) Complete assembly by tightening the nuts and bolts on the base plate using a combination of two, 9/16 end wrenches, socket wrenches, pliers, or a crescent wrench.
